ROMWY Power Garden Machinery Ltd.

I have been a customer of Romwy for over twenty years. With 3 acres of lawns and 2 acres of Paddocks, about a 1.¼ miles of hedging - times 2 for both sides. I need a fair range of equipment to manage all this, from ride on mower, propelled mower, hedge trimmer, leaf blower and so on.

The range and choice of equipment at Romwy is to be seen to be believed.

There is an excellent parts store and one rarely has to wait long for a part that has to be ordered if not held in the store.

Servicing of equipment is carried out to an excellent standard, from a knowledgeable, and friendly staff.

In recent years we have been able to hire equipment such a mini digger and lawn scarifier, again an excellent service for such 'tools' probably only used once a year.

I have often recommended Romwy to friends, who agree that Romwy serves us very well, we are fortunate to have such a well run business in our locality.

Michael Nokes.
